## **RoHS Compliance Statement**

The European Union (EU), in an effort to protect human health and reduce environmental pollution has approved EU Directive RoHS 2002/95/EC to restrict the use of:

- Lead
- Cadmium
- Polybrominated Biphenyls (PBB)
- Mercury
- Hexavalent Chromium
- Polybrominated Diphenyl Ethers (PBDE)

Furthermore, the Directive states that member countries of the European Union Council shall insure that new equipment sold after July 2006, is complaint with RoHS.

RAF Electronic Hardware would like to state that all of our raw materials with the exception of the aluminum alloy 2011 are in compliance with the Directive. This does not include any of our aluminum handles, which are all currently compliant. All other raw materials, steel, stainless, brass, nylon, teflon, and phenolic, are in compliance.

All of our plating codes are RoHS compliant with the following exceptions:

- -1 (Cadmium Commercial)
- -2 (Cadmium Clear Chromate)
- -3 (Cadmium Yellow Chromate)
- -6 (Gold Iridite)
- -9 (Alodine 1200)
- -15 (Hot Tin Dip)
- -27 (Electro Tin Solder 60/40)
- -44 (Zinc Cobalt Yellow Chromate)

**The compliancy issues with our aluminum alloy 2011 will be resolved by January 2006.**

You can be assured that we, here at RAF, are concerned with a smooth transition to insure a continuous flow of product and to continue to maintain a high level of service to our customers.

If you have any questions, please contact us immediately at [RoHS@rafhdwe.com](mailto:RoHS@rafhdwe.com).

Sincerely,

L Lapucia  
President
